

Usage and basic fees

Usage fee

	€/m ³ , VAT 0%	€/m ³ , VAT 24%
Water	1.23	1.53
Waste water	2.06	2.55
In total	3.29	4.08

In addition to the basic fee, a fee of EUR 1.33/m³ + EUR 0.32 (VAT 24%) = EUR 1.65/m³ will be charged for temporary water, measured with a temporary water meter or according to the estimated use. If a fire hydrant meter has been damaged during use, the repair costs of the meter and the final readings of the meter plus 100 m³ as a usage fee will be invoiced.

Fees related to connecting to the network

Connection fee

A connection fee will be charged when a new building is connected to the water supply and/or sewer network. The amount of the fee is dependent on the type of the property and permitted building volume. You can request a connection fee calculation from our customer service, tel. +358 40 806 2747 or vesi.karttapalvelu@tampere.fi. The connection fee is charged according to the currently valid price list at the time of conclusion of the water agreement. Value added tax will be added to the price (24%). For instance, the connection fee of a detached house under 250 m² is EUR 5.340 + VAT 24% = EUR 6 621,60. There is a calculator for calculating the average connection fee available on the Tampere Water website. In addition to the connection fee, the property owner is required to cover the cost of building the service pipes.

Building of the beginnings of the detached house service pipes into a shared pipeline excavation at the boundary of the plot in connection with the construction of the residential area

	EUR/VAT 0%	EUR, VAT 24%
Water pipe (d 40 mm)	900.00	1,116.00
Waste water sewer (d 110 mm)	1,400.00	1,736.00
Waste water and storm-water sewer (d 110 mm)	2,300.00	2,852.00
Water supply and waste water sewer	2,300.00	2,852.00
Water supply, waste water and storm-water sewer	2,900.00	3,596.00

Building of the beginnings of the detached house, terraced house, apartment building and industrial site service pipes

If service pipes for the plot at the boundary of the plot have not been built in conjunction with new construction projects, the property owner can have them built by Tampere Water based on a quote or by another contractor. Tampere Water will connect the property to the core network and the water supply system in the property and invoice the work.

Extending the service pipes of detached houses from the boundary of the plot to the property's water meter

Installing the water pipe into an open excavation, including work and material costs (d 40 mm, length less than 30 m). It must be taken into account that the excavation work for the water and sewer pipes on the plot will be carried out by the contractor of the developer. EUR 400.00/VAT 0%, **EUR 496.00** VAT 24%
